

ARXIS P403E

The entry-models into the world of pulse welding - for an unbeatable price

- Only for Manual Welding
- Continuously variable welding inverter for MIG/MAG pulse arc welding
- Excellent welding characteristics for mild steel, stainless steel, aluminium

Specification

Type	AR-P403E
Rated input voltage	400 V
Primary power max.	20.2 kVA, 16.6 kW
Rated output current range	30-400A
Rated output voltage range	12-34V
No-load voltage	80 V
No-load power consumption	45.3 W
Duty cycle 40°C 60%/100%	60% with 400A DC, 50% with 400A DC Pulse
Protection class	IP 23

Product information

Order No.	130026026
Model No.	0
