

DTX-202, WIG

Welding power source, DTX-202, TIG

- Excellent arc start characteristics by high frequency of lift-start
- High performance on thin metal sheets
- Low energy consumption and high efficiency structure
- Control panel protected against accidental impact
- Sloping front control panel, easy to read and adjust and highly visible from any direction
- IP 23 protection class
- Use of TIG Up/Down torches will enable the remote control of the welding parameters directly from the torch

Specification

Type	DTX-202
Rated input voltage	230 V
Rated output current range	5-200 A
Rated output voltage range	14-26.5 V
No-load voltage	88 V
Duty cycle 40°C 60%/100%	60% with 140 A; 100 % with 120 A
Weight	7,5 kg
Dimensions (L/W/H)	390/135/300 mm

Product information

Order No.	225026001
Model No.	0
