

MP-255C MIG/MAG

The compact entry model into the inverter class

- Continuously variable DC-pulse MIG/MAG inverter
- TIG liftarc welding
- Reverse polarity option for welding with flux cored wire with and without gas
- Compact and light
- 4-roll drive with encoder

Specification

Type	MP 255C
Rated input voltage	400V
Rated output current range	10-250 A
No-load voltage	60 V
Duty cycle 40°C 60%/100%	35%
Protection class	IP23S
